

# Being Admitted to West Suffolk Hospital?

Have you packed everything?

- ✓ Toothbrush
- ✓ Pyjamas
- ✓ Slippers
- ✓ Books

You've forgotten something!!...

... **Your medicines**

**When you are admitted to hospital**  
(either planned or emergency)

**REMEMBER TO TAKE ALL YOUR CURRENT  
MEDICINES WITH YOU**

for example tablets, inhalers, eye drops, creams, etc.

*Don't forget any herbal remedies or medicines you have bought.*

Your medicines help the hospital staff to know exactly what you are taking. They will be safely stored in bedside lockers.

Suitable medicines may be used whilst you are in hospital and returned to you when you leave.

This will avoid confusion once you are home, as you can continue taking the medicines you are familiar with.

  
Putting you first
